

TEST PLAN

1. Introduction

This Test Plan outlines the testing objectives, scope, approach, environment, deliverables, and schedule for validating the Sign-up/Sign-in, Forget Password, and Delete Account functionalities of the application.

2. Features to Be Tested (In-Scope)

1. Sign-up / Registration

- New user registration
- Data validation
- Error messages and required fields

2. Sign-in / Login

- Valid and invalid authentication
- Error messages
- Navigation after login

3. Forget Password

- Request password reset
- Email sending validation
- OTP flow

4. Delete Account

- Authentication before deletion
- Confirmation prompt
- Successful account deletion

3. Features Not to Be Tested (Out-of-Scope)

- Editing or updating existing account information
- Creating multiple accounts using the same email or phone
- Any backend API or performance testing

4. Test Levels and Test Types

4.1 Test Levels

1. System Testing

- Full end-to-end validation of account-related features.

2. Acceptance Testing

- Validation from user perspective to ensure readiness for release.

4.2 Test Types

1. Unit Testing
2. Integration Testing
3. Functional Testing
4. Usability Testing
5. Regression Testing

5. Exit Criteria

Testing will be considered complete when:

- All functional test cases are executed.
- There are **no functional bugs** remaining.
- All remaining bugs are of **low severity** only.
- No more than **10% of medium-severity bugs** remain open.

6. Suspension Criteria

Testing will be suspended if:

- Critical/blocker bugs are open and prevent further testing.
- All remaining test cases are blocked due to unresolved issues.

7. Test Deliverables

- **Test Cases**
- **Bug/Defect Report**
- **Test Summary Report**

8. Test Environment

Component	Details
Operating System	Windows 10
Server	QA – Staging
Browser	Google Chrome (Latest Version)
Network	Wi-Fi

9. Estimation (Time Required)

Feature	Estimated Time
Sign-up / Sign-in	6 Hours
Forget Password	1 Hour
Delete Account	1 Hour
Total Estimated Time	8 Hours
